

## **RULES OF THE SPECIFIC CALL FOR ENROLMENT SCHOLARSHIPS FOR REFUGEES, ASYLUM APPLICANTS AND STATELESS PERSONS**

# **FIRST SEMESTER OF THE 2019/2020 ACADEMIC YEAR**

The Universitat Oberta de Catalunya (hereinafter, UOC), aware of the economic and social situation of refugees, applicants for asylum and stateless persons, opens the extraordinary specific call for social action scholarships for refugees or asylum applicants. These scholarships are intended to palliate the extraordinary situations of students who are stateless or find themselves in extreme financial difficulty as a result of personal or family circumstances caused by a humanitarian crisis, an armed conflict or other sociopolitical situations that have forced them to leave their country of origin, and who are unable to find assistance within the mechanisms provided by the competent government agencies.

The specific scholarships call is conceived by the UOC to palliate a situation of vulnerability among refugees, asylum applicants and stateless persons.

These scholarships – understood as an assistance that will enable students enrolled in educational programmes in the first semester of the 2019/2020 academic year to start or continue their studies when faced with difficulties in doing this by the ordinary channels – are intended for people who have suffered an extraordinary personal or family situation of economic or social breakdown that forces them to live outside of their country of origin or live in refugee camps, and who are refugees, asylum applicants or stateless persons.

Due to the limited resources available, it is necessary to classify the scholarship applications submitted within this call, setting as aim that of facilitating access to postgraduate specialization programmes, language courses and open courses, thus enabling applicants to obtain qualifications.

## **Article 1. Purpose and recipients**

1. The purpose of this specific call is to regulate the awarding of enrolment scholarships for the first semester of the 2019/2020 academic year and respond to the extraordinary needs of students who are refugees or asylum applicants. These needs, which have arisen as a result of violations of basic human rights in their home countries, affect the family unit or the applicants themselves, causing severe economic harm that creates difficulties in starting or continuing their studies.
  2. For the first semester of the 2019/2020 academic year the assistance being offered consists of six [6] scholarships to cover the cost of enrolling on specialization programmes, six [6] scholarships to cover the cost of language courses, and twenty [20] scholarships for open

courses.

3. The learning programmes included in the scholarship scheme are specified in Appendix 1 of the scholarships call.
4. These scholarships are incompatible with other international grants or scholarships from the UOC, such as those offered in connection with the OEA, ICETEX or SENESCYT.

## **Article 2. Individual amount of the scholarship**

1. The individual amount of the scholarship is equivalent to one hundred per cent [100%] of the cost of enrolling for the specialization programme, language course or open course that the recipient wishes to study during the first semester of the 2019/2020 academic year.
2. This scholarship will not cover the amount payable in the event of second or subsequent enrolments for the same studies, nor can it be accumulated with other discounts that the UOC has agreed to apply to certain population groups. The scholarship can only be used for the semester to which these rules refer and, therefore, may not be postponed, deferred or split for subsequent semesters.

## **Article 3. Requirements**

1. In order to be eligible for the enrolment scholarships offered in these rules, applicants must:
  - 1.1. Be at least 18 years of age.
  - 1.2. Be refugees, stateless persons and/or asylum applicants.

2. People who in the past have received a scholarship from this programme and have not taken part in their chosen learning programme properly are not eligible for this scholarship call.
3. Each person can obtain one of the scholarships up to a maximum of four [4] times, counting from their first award. Any subsequent applications from the same person will be rejected.

4. Anyone who has applied for other international grants or scholarships from the UOC, such as those offered in connection with the OEA, ICETEX or SENESCYT, will be ruled out of the application process for these scholarships. If it is found that the applicant has also applied to any of the aforementioned grants or scholarships, their application to this call will be rejected.
