

# Annual Progress Report

Doctoral Programme in Health and Psychology

\*Obligatorio

### Preliminary information

Current doctoral regulations require that the members of each student's thesis committee write a progress report at the end of each academic year to assess whether the student is progressing as planned in his or her thesis plan (this report is not made in the first year because the approval of the thesis plan itself is seen as accomplishing this function).

You should review the activity report provided by the student (attached in this e-mail) and consider all the work that you have been doing with the student. Please answer the questions below in a concise manner, although it is best to provide all details necessary if there are significant problems with the project.

You can consult the regulations for doctoral studies at this link.

This form contains these sections:

- Preliminary information
- Main details of the thesis committee and student
- Global assessment of the thesis plan, and
- Justification of the assessment

The assessment is based on the:

1. Timing
2. Methodology
3. Review of the scientific literature in the field of study
4. Results obtained

ATTENTION:

- A report must be prepared by all members of the thesis committee separately. Each his/her own.
- Read the completed form first (the four sections) before checking the global assessment option.
- This report must be sent before 6 June.
